Best of luck to Charley McQuade-Hall who will be representing Prospect Creek State School at next week’s final for the small school’s Speaking Competition in Moura. QSCHOOLS APP

You may have seen on the news that the government has launched a free app for parents and carers with students in Queensland schools called QSCHOOLS. This app provides you with easy access to the school calendar, news, and a pdf of our latest and archived newsletters. I do not use the words “easy access” frivolously. I was able to download the app and set it up on my iPhone for Prospect Creek State School in a matter of minutes.

App benefits for parents/caregivers include:

- Searching for the nearest school by current location, postcode, school name or suburb and view school contact details
- Adding multiple schools as favourites to enable parents to view updates from multiple schools in a single view
- Accessing the latest school news and events to stay informed
- Receiving emergency announcements and information around school closures
- Convenient and prompt method of receiving messages/information from school/s

I would love to hear back from you if you have successfully installed the app and have given it a try.

More funds raised for the 4-7 camp by The Youles!

As a result of the efforts of Mrs Youles, Accasia (yes the company doing ‘those’ road-works), auctioned off a signed State of Origin poster to the tune of $453 and donated those funds towards our 4-7 Canberra Camp. Accasia further donated 2 beautiful books to our library and we thank for their contribution to our school.

FINAL DAYS OF WOOLWORTHS EARN AND LEARN!

With only one week left, we are asking you to COLLECT! COLLECT! COLLECT! Our families are already doing a terrific job in collecting Woolworths and Learn Stickers. The more you collect, the more our students get! So please encourage family members, extended family members, and super-extended family members to collect on our behalf as well!

Sincerely,

Gregg Savage
Week 8 has been nothing short of busy, busy, busy! The students have continued writing their persuasive feature articles and these have been coming along impressively. We also learned about abstract nouns and how they describe our thoughts and feelings. In science, the students have continued their explorations into reversible and non-reversible chemical reactions. Numeracy focused on angles this week and the students were incredibly surprised at how much there was to learn about this abstract concept! We are looking forward to putting all of our training into the Jambin sports day and we wish Charlley the best of luck at the Moura speaking competition!

This week we had fun in design and technology making towers!

Nick managed to design and make the tallest tower! Well done Nick!
Congratulations to our Students of the Week!
Well done everyone!

JORDAN TAPPIN—Reaching Green Mioow!

JORDAN ROWN—Cooperating well in reading groups to achieve the best for his team!
